*(And let us worry about the details)*

An underwater photograph in shades of blue. A large dolphin is the central focus, swimming towards the right. To its left, a diver is seen in profile, also swimming. To the right of the dolphin, another diver is visible, wearing a mask and fins. The water is filled with many small fish, and a bright light source, likely the sun, is visible at the bottom center, creating a shimmering effect. The overall mood is serene and majestic.

# *From the Sea*

*Panama is an indigenous word that means:*
